Video 6_Training Recording Grid Resilience Formula Grants for
Tribes-20230622 1858-1_v01

HOMARI AOKI: Hello and thank you for joining us on the Grid Resilience State and Tribal Formula Grant grant application assistance videos. This video will cover the Environmental Questionnaire.

The Environmental Questionnaire ensures compliance with the National Environmental Policy Act. The form that is included with the application should only address the technical assistance and administrative activities. This is because the initial award will only authorize the technical assistance and administrative activities. Resilience projects and associated sub-awards must be approved individually post-award and will require separate environmental questionnaires.

The technical assistance and administrative activities are listed under Group A on the first page of the Environmental Questionnaire. Once you complete section two of the questionnaire, you would check the box for Group A and then you would go immediately to the end of Section 3, which is the Certification by Proposer and you would sign the form.

You do not need to fill out any other sections of the Environmental Questionnaire for the purposes of the application.

This concludes the section on the environmental questionnaire. The next video will be on the SF-LLL or the Disclosure for Lobbying activities.
